# GOOD BUILDINGS PAY

**T**HE need for proper buildings is one which everybody realizes, no matter whether he be a farmer or a city dweller. Good, convenient, well planned buildings, give the greatest possible returns in comfort and happiness for the money invested. You can enjoy them every day in the year, regardless of heat or cold, rain or blizzard.

In recent years a great deal more in service is expected of the up-to-date lumber dealer. To begin with he must be able to furnish every building requirement. Not only the lumber but the cement, paper, roofing, insulation, brick, tile, flue lining, wood or metal lath, plaster, special windows and doors with the proper frames, and dozens of other items too numerous to mention. If he is a Revelstoke dealer he will not only supply all your building requirements, but will furnish you full information as to cost of material and quantities required. Further he can assist you to plan your buildings. Explain to him the kind of buildings you need, their purpose and size, and he will arrange with our planning department to work out your ideas to scale and furnish working drawings.

Remember, a proper plan will save you many dollars in the construction of your buildings.

During twenty-five years of retailing building supplies we have built up an ever increasing circle of friends amongst our customers in Alberta and Saskatchewan. The reason for this is that from the beginning our aim has been the greatest possible service to our customers.

We carry the "best material for every purpose," and when it comes to dollar for dollar values we do not take second place to anyone anywhere.

*See our Revelstoke Yard Manager in your town when you are  
in need of anything in the line of  
Building Material.*

**Revelstoke Sawmill Co., Ltd.**

Size 27' 0" x 33' 6"

## Design 14087-B

4 Rooms, Bath  
and Sun Parlor

**E**XAMINE closely the picture of this home. It is bright, homelike, artistic and inviting—all that one would desire. The entire building is a creation of symmetrical design. The shingled walls with the hanging rafters are effective in producing this bungalow home. Four large rooms are planned for the interior. This simple arrangement of rooms is offered as being the most economical and the most convenient for your money.

### *Don't Hesitate to Ask Questions*

*Remember that you are building a home and whether it is small or a large dwelling you want first-class construction and high-grade material. Therefore, all questions regarding construction, inspection, quality of material, delivery and costs should be carefully considered and decided. Ask us any question; it is your right. We want you to be a satisfied home owner.*

### DIMENSIONS

Width over all.....31 ft.  
Depth over all.....45 ft.  
Ceiling height.....8 ft. 6 in.  
Height of basement.....7 ft.

Size 24' 0" x 24' 0"

## Design 14129-B

6 Rooms and Bath

**M**ODERN square type of homes are always popular. To the builders they offer the most space for the practical conveniences and arrangements of rooms. This design, while not large, is composed of six cheerful rooms and plenty of large closets. Note the large living room with its cheerful fireplace and abundance of windows. The cost of this home never fails to please the happy builder.

### DIMENSIONS

Width over all.....	29 ft.
Depth over all.....	38 ft.
Ceiling height, 1st floor.....	9 ft.
Ceiling height, 2nd floor.....	8 ft.
Height of basement.....	7 ft.

"Pet ideas" of prospective home builders will be gladly developed by us. Bring in a rough sketch of your special planned home. Our service will then do full duty in shaping your plans, so they are practical and economical.

Size 26' 0" x 28' 0"

## Design 14057-B

6 Rooms and Bath

*Our plans  
provide for  
good economical  
construction and  
prevent costly  
errors.*

Height of basement.....		7 ft.	

**T**HIS little English type home will solve your problem of how to get the best results on the investment of your money. In this house you will have the compactness desired and still retain the privacy afforded by a second story. The pleasing impression gained from the outside is retained upon entering, for directly facing the front is the big fireplace.

Careful consideration of this home will bring out many other pleasing features.

Size 34' 0" x 24' 0"

## Design 14146-B

7 Rooms, Bath and  
Sun Parlor

### DIMENSIONS

Width over all.....	47 ft.
Depth over all.....	33 ft.
Ceiling height, 1st floor.....	9 ft.
Ceiling height, 2nd floor.....	8 ft. 2 in.
Height of basement.....	7 ft.

THE design is of course excellent but it is the color scheme which in the last analysis, fascinates. The white blends into the gray green and the gray green into the dark green. The red chimney is a dash of bright color for contrast and also serves to bring out the superior blend of the house. In the actual house the colors are even more beautiful.

Size 26' 0" x 25' 0"

## Design 14141-B

6 Rooms, Bath and  
Sun Room

**T**HIS home speaks for itself. Little needs to be said and there is little room to say it. A brief inspection of the picture and floor plan will serve to captivate you.

Ceiling height, 1st floor.....8 ft. 6 in.	Ceiling height, 2nd floor.....8 ft.
Height of basement.....7 ft.	

*Tell us the home you are interested in—so we can give you an "estimate of cost" to guide you in making suitable selection.*

## Design 12855-B

Size 26' 0" x 42' 0"

5 Rooms and Bath

A BUNGALOW in the conventional style yet individually conceived. For instance, the half open porch and the broken roof lines are distinctive. When we visualize the completed interior we find that the same good taste has been exercised in the arrangement and proportioning of the rooms.

### *The Best Investment of All*

No matter what home you may select that is shown in this book, your choice means a sound investment—for the homes that we illustrate here represent the best to be had as to attractiveness, practicability and economical construction.

#### DIMENSIONS

Width over all.....	31 ft.
Depth over all.....	56 ft.
Ceiling height .....	9 ft.
Height of basement.....	7 ft.

Size 24' 0"x29' 0"

## Design 10554-B

6 Rooms, Bath and Den

THE above home deserves especial consideration. Distinctive in design, convenient in arrangement, lasting in quality, and inexpensive to build. It answers all the desires of the modern home-seeker. When you have considered all these points you will think it time to build.

### DIMENSIONS

Width over all.....29 ft.  
Depth over all.....46 ft.

Depth over all.....	38 ft.
Ceiling height, 1st floor.....	8 ft. 6 in.
Ceiling height, 2nd floor.....	8 ft.
Height of basement.....	7 ft.

*These Homes were selected not only for their beauty of exterior and interior design and convenience of plans but — above all, they were selected because of their moderate building costs.*

*Courtesy of Mosaic Tile Co.*

A completely tiled kitchen, as pictured above, insures the utmost in cleanliness and pleasantness for the housewife. The handy arrangement of the different units is to be especially pointed out here.

*Courtesy of Mosaic Tile Co.*

*Courtesy of Mosaic Tile Co.*

The dining room at the right is an illustration of warm, rich colors so appropriate to the Tudor or Spanish home with dark interior trim. The difference in wall treatment and such features as service tables, lighting fixtures, floor coverings and style of architecture is dependent upon the architecture and prevailing tone of the house. Thus if your home is of quiet colonial design with painted woodwork and light walls, a different color scheme than this illustration is recommended.

*Courtesy of National Lead Co.*

## Design 14190-B

Size 22' 0" x 35' 6"

5 Rooms and Bath

THIS has proved to be a most popular bungalow, both because of its attractive exterior and because of its convenient interior. All rooms on one floor is a feature always appreciated by the housewife who has the care of the home. And, best of all, this home can be built for a very reasonable sum. Artistic designs without increase in cost is the work of master architects.

*Very latest designs of "BUILT-IN FURNITURE," such as bookcase colonnades, buffets, china closets, kitchen cabinets, etc., are furnished by us. Call at our office and let us show you illustrations of many patterns.*

## Design 14037-A

6 Rooms, Bath and Sun Parlor

**G**AMBREL-ROOFED is often used synonymously with Dutch Colonial. For small homes it is a pleasing type which is constantly growing in popularity.

While it may be developed in any local materials shingles are always suitable as well as clap boards. The roof, shutters and trim afford opportunity for color.

While the exterior is excellently designed in harmonious portions the interior provides every comfort for a large family and yet is arranged so that the housework is not burdensome.

### DIMENSIONS:

HERE is a well planned home of unusual merit. Just the kind of home to build when appearances, convenient room arrangements and low building costs are desired. Look at the beautiful picture and then examine the floor plans. Note the large, well lighted, cheerful rooms and the big closets.

This charming home will make a pleasant addition to any neighborhood

# BETTER FARM BUILDINGS

The demand for better farm buildings is growing. The increasing cost of buildings calls for **economical construction**. Heretofore permanency and convenience in farm buildings have not received the consideration which their economic value warrants. A sacrifice of either of these qualities means in the end, loss of time and money.

## GOTHIC ROOF BARN

MUCH USED, VERY PRACTICAL, ECONOMICAL  
AND STRONG. FURNISHES LARGEST  
UNOBSTRUCTED HAY MOW

**WE ARE AT YOUR SERVICE AT ALL  
TIMES**

We offer our experience and advice to those who consider building. Very often a person is greatly handicapped by not being able to procure the exact building he wants, and very often he is involved in serious difficulties, because of not fully understanding the problems usually to be met. We will, therefore, aid you, to the best of our ability, in securing the building most desirable for your purpose and in successfully carrying on your building operations. Do not forget that we are in position to secure you expert technical advice so often required in building construction.

### A WORD REGARDING MATERIAL WE FURNISH

Our material is selected for **quality, durability and strength**. We guarantee to furnish the material in sufficient quantities to erect the **building substantially**, according to the **blue print plans**, and the itemized list of material which we provide for each building.

We furnish all framing and dimension lumber, all sheathing, boards, furring, etc., all outside wall siding, all flooring and ceiling, all shingles or roofing, all lath, all outside finish lumber, all inside finish lumber, all millwork, including outside mouldings, all door and window frames, all windows and sash, all doors, all trim, and all hardware such as door hangers and track, butts, hinges, fasteners, locks, pulls, etc., all nails, and all paint, oil, etc., to complete the building.

The quality is such that we invite you to call to see for yourself.

## OUR MATERIAL IS ALWAYS OPEN TO INSPECTION

Please bear in mind that the material and construction will pass the most rigid inspection or examination by experts. Therefore, if you are not competent to judge for yourself, secure the assistance of your contractor who knows values, as we want you to be pleased. Realizing that a satisfied customer is the best advertisement we can secure, it pays us to furnish you the right quality of material and prompt service.

### COST OF MATERIAL For Prices Call at Our Office

As the prices of lumber fluctuate continually, we cannot publish a permanent price of material for each design as it would be hazardous to both ourselves and customers. Our prices in each instance will be consistently low. Without any obligation on your part we will gladly name you guaranteed delivered prices on any complete building and you will then know to a penny what it will cost you. We do not believe, however, that the price on building material will be any lower than it is at present. We formed this opinion after carefully studying the building material situation. We can positively state that of the ninety-seven articles that go into the construction of a building, lumber has increased the least in price.

## GAMBREL ROOF BRACED RAFTER TYPE

A THOROUGH, SELF-SUPPORTING BRACED  
RAFTER ROOF. OFFERS LARGE UNOB-  
STRUCTED MOW CAPACITY

### HOW TO SELECT YOUR FARM BUILDING

(1) Read these introductory pages of this book and become familiar with our open-and-above-board method of furnishing material for the complete buildings.

(2) Look over the pages carefully and select the plan suitable for your requirements.

(3) Tell us the plan number which interests you, and ask for complete information concerning it.

(4) Note that we can be of the utmost service to you by giving you the following:

A Satisfactory Delivered Price.  
Good Quality of Material, Item for Item.  
Right Kind of Construction.  
General Building Requirements.  
Information Regarding Changes.

## WE MAKE CHANGES TO SUIT

Very often certain conditions and requirements demand changes in plans which otherwise would be satisfactory. Now we appreciate this and, therefore, gladly offer our assistance in any manner that will aid you in securing the exact revisions wanted. If necessary, we will make-over the entire plan, in order to secure for you the building you desire. The cost of all changes, whether to your credit or ours, will be figured in the same proportion as the original bill.

## OUR BLUE PRINT PLANS ARE FREE

Plans are furnished those who purchase material from us. By this liberal "free-plan offer" you secure complete plans giving details and instructions, besides a complete bill of material specifying the size and style of each item, telling where each is placed in the construction. Think what this means to you and your carpenter as a great saving of time and labor.

## PLANS MADE FROM YOUR OWN IDEAS

We furnish free plans which will be made according to your own ideas. These plans will be correct in every way. Furnish us a crude drawing of what you want in the way of a barn or other building, also give us full information regarding the type and purpose of the structure and we will then submit correctly drawn pencil sketch plans for your approval. These sketch plans are furnished so that there will be no chance of making any errors, and so that the builder will be enabled to secure the plan arranged strictly according to his requirements. This is where our practical builders and trained architects, who are thoroughly versed in the requirements of modern farm buildings, will be of great service to the farmer and stock raiser.

After you have carefully examined the sketch plans, you return them to us with full information regarding any changes wanted. The blue print plans will at once be completed, a material bill will be made, and we can then name you a guaranteed delivered price on the material which we furnish for the construction. Do not overlook the fact that this service is rendered free to those who purchase the material from us.

## MASONRY MATERIALS

If desired, we will include with each building a list of the quantities of masonry materials required, such as that used for the foundation, cement floors, chimneys, steps, plaster and stucco.

## IN CONCLUSION

One idea underlies our business; its foundation. That every customer, with every sale, shall be satisfied. We try to do it with quality of material, with value for the price, with service.

## GAMBREL ROOF PLANK TRUSS TYPE

A VERY STRONG STRUCTURE. LARGE MOW CAPACITY OFFERS GREAT RESISTANCE TO WINDS AND STORMS

### CONSIDER THESE FACTS

- 1—The barn or farm building is your **factory—your workshop or warehouse**—in use daily throughout the year.
- 2—If your building is not built properly, it may result in losing money every day.
- 3—A **first class building** especially designed for its purpose is a constant money maker, because it saves labor, feed and time.
- 4—A **Farm** with a **convenient, practical barn** will sell for a higher price.
- 5—A **well equipped stable** adds to the selling price of your cows or stock, as it shows them off better, makes them healthier, and better producers.
- 6—As **contented, healthy cows** produce more milk, then they should be housed in comfortable and sanitary surroundings.
- 7—It is a **great mistake** to think that the hog does not need to be protected from the weather. Hogs are originally from warm climates, nature has not provided them with much in the way of protective covering. These animals require sanitary housing and plenty of sunlight. A **good hog house** will produce healthier stock and more pork.
- 8—The present value and high cost of grain warrants a first class storage house. **Properly constructed granaries** save many a dollar.
- 9—**Poultry**, when kept in a dry, clean, well ventilated, well planned house, returns the largest profit.
- 10—**Scales**, installed on farms, enable the farmer to sell his produce, grain and live stock by actual measure. Your measures are just as correct as the other fellow's.
- 11—**Seed is very important** to the successful raising of future crops. **Protect your seed** and cure in a properly constructed building.
- 12—**Farm Buildings** should be as carefully constructed for their purposes as are manufacturing plants.
- 13—**Money invested** in the farm for buildings **will be returned** in increased profits, healthier stock, better grain, healthful surroundings, less labor, and more congenial help.
- 14—**Now is the time to build** while you are getting good prices for your produce.

# CONSULT US BEFORE BUILDING

No matter how large or small or what type of a building or structure you contemplate erecting, IT WILL PAY YOU to consult with us. Our trade knowledge and experience is yours for the asking.

OUTSIDE DIMENSIONS  
Size 36'0"x60'0"

MOW CAPACITY  
75 Tons Loose Hay

## GOTHIC DAIRY BARN C-13123

Gothic roof barns, besides offering more mow space than any other construction, give greater resistance against wind storms and blizzards.

As there are no cross timbers and truss braces, the mow floor is entirely unobstructed.

The lower story contains 24 cow stalls, a feed room, grain bin and space for hay chute.

The studs for the lower floor are 2x6 spaced 24 inches on centers.

The studs and rafter ribs for the second floor are built up of five thicknesses of 1x4 boards well nailed with box nails and spaced 24 inches on centers.

The barn offers perfect ventilation, convenience, and large hay capacity.

CROSS SECTION

FLOOR PLAN

Side frame walls are 13½ feet high.

Side walls of hay mow run 5 feet above hay floor.

Lower floor ceiling is 8½ feet above concrete floor.

Ridge of roof is 39 feet above ground.

Plans with full particulars and cost will be furnished upon request.

The foundation walls extend 18 inches above the ground.

OUTSIDE DIMENSIONS  
 Plan A—Size 36'0"x68'0"  
 Plan B—Size 36'0"x80'0"

STALL CAPACITY  
 Plan A—10 Horse Stalls  
 Plan B—10 Horse Stalls

## HORSE AND IMPLEMENT BARN C-11409

This style of barn should be handy to those who desire to stable their horses away from the other stock and close to the farm machinery and wagons. A Barn of this kind can be converted at any time into a general purpose barn.

Besides the space for wagons, and horses, there is a great mow capacity for hay on the second floor. The construction is plank frame with horizontal siding. The stable is well ventilated and provision is made for plenty of light.

Basement wall extends 2 feet above grade.

Side walls are 16 feet high.

Side walls of hay mow are 4 feet above floor.

Horse stable ceiling is 9 feet above floor.

Wagon room ceiling is 13 feet above floor.

CROSS SECTION

FLOOR PLAN

Ridge of roof is 38 feet above ground.

Plan A—Mow capacity 78 tons of loose hay.

Plan B—Mow capacity 90 tons of loose hay.

If you should desire to see plans of this design, let us hear from you. On account of furnishing all material for construction, we are able to furnish attractive prices to our customers.

OUTSIDE DIMENSIONS

Plan B—Size 32'0" x 60'0"

MOW CAPACITY  
Plan A—50 Tons Loose Hay  
Plan B—64 Tons Loose Hay

## BARN C-9044

A neat, compact barn design which will give the maximum mow space and perfect ventilation besides any convenient floor arrangement can be had. The owner can arrange the stalls, alleys and feed bins suitable to practical requirements. Roof aerators are provided.

**Mow floor** is unobstructed by posts.

**The rafters** are each braced as shown by cross section.

**The concrete walls** extend 20 inches above ground.

**Frame side walls** are 14 feet high.

**Lower story** is 9 feet high.

CROSS SECTION

**Hay mow** is 22 feet high from floor to hay carrier track.

**Vertical hay mow side walls** are 6 feet high.

**Roof ridge** is 35 feet above ground.

We carry plans on hand and can furnish them promptly.

**Call and ask for full details and prices.**

FLOOR PLAN

OUTSIDE DIMENSIONS  
Size 26'0" x 46'0"

## COMBINATION BARN C-11420

STABLE CAPACITY  
4 Horses, 3 Cows and 1 Box Stall

Here is a compact well designed barn which is found in many different parts of the country. The wide driveway which is open up to the roof in the center is floored up 14 feet from the floor which gives a much greater mow capacity.

The driveway also divides the cow department from the horses which is always desired. This driveway can be used for many purposes depending on the kind of farming. The stall arrangements are handy and practical.

Do not overlook the convenient feed bin and the large box stall. A most essential feature is the quantity of windows and the perfect ventilation to be had.

Foundation wall runs 2 feet above ground.

FLOOR PLAN

CROSS SECTION

Frame side walls are 16 feet high.

Side walls of hay mow run 8 feet above mow floor.

Roof ridge is 33 feet above ground.

Foundation and entire ground floor is of concrete.

Mow capacity, 20 tons of loose hay.

This barn is of plank frame construction and has clear hay mow without posts.

Plans, full particulars and prices of material furnished to our customers upon request.

OUTSIDE DIMENSIONS  
Main Building—23'0"x37'0"  
Including Pens—32'0"x49'6"

## HALF MONITOR ROOF HOG HOUSE C-11560

Above house was originally built by one of the most prominent Duroc breeders after careful study. It is a most serviceable structure and is advocated in farmer's bulletin 438 "U. S. Department of Agriculture." It is sanitary, well lighted, and for every inside pen there is the equivalent outside pen.

On the north side is installed a concrete dipping vat in a convenient runway.

Capacity: Main building, 10 pens; outside, 9 pens. This plan has proved successful.

Call for price on all materials to erect this or any other building.

OUTSIDE DIMENSIONS  
Plan A—Size 20'0"x24'0"  
Plan B—Size 30'0"x32'0"  
Plan C—Size 22'0"x32'0"  
Plan D—Size 24'0"x48'0"

CAPACITY  
Plan A—8 Pens  
Plan B—10 Pens  
Plan C—10 Pens  
Plan D—16 Pens

## HALF MONITOR ROOF HOG HOUSE C-9029

A modern up-to-date Hog House, which has met the approval of extensive hog raisers.

Foundation and floor are concrete, the floor being spread over the whole surface. A concrete floor in a hog house is an absolute necessity, but it is too cold for hogs to sleep on. For this reason, each pen is equipped with a removable floor mat for the hogs to lie on.

Partitions are all removable and the manner of feeding is very simple; the pens are arranged for convenience and sanitation. Aerators are provided for roof.

Arrangement of windows affords sunlight at all time during day. Call for prices.

OUTSIDE DIMENSIONS  
Plan A—Size 13'0"x36'0"  
Plan B—Size 13'0"x54'0"

## OPEN FRONT POULTRY HOUSE C-11455

Plan A—2 Compartments  
Plan B—3 Compartments

It is just as necessary to build a good poultry house with proper sunlight and sanitation as it is to build any other farm building. Whether you raise a common mixed breed of chickens or the pure bred stock, a sanitary building promotes better health.

Pure bred stock requires the best housing, as all poultry raisers acknowledge. This plan will answer all purposes of a fairly large poultry raiser; and provides roosts, brooding coop and dust box in each compartment, besides nests can be built under the roosts.

Each compartment is 12 feet wide by 18 feet in length, which gives large area for scratching. Besides the muslin open front for ventilation and fresh air there are plenty of windows for sunlight.

Cost of material is a small item when the usefulness of this building is considered.

## MULTIPLE UNIT POULTRY HOUSE C-13109

OUTSIDE DIMENSIONS

Size:

20'0"x24'x0"

Capacity 150 Fowls

This type of poultry house is approved by many and in some sections of the country it is given exclusive preference.

The main reasons for this preference are that it is simple in construction, which insures low cost, it meets all the requirements of sunlight and ventilation and enables one to add other units of the same size as the flock grows larger.

It can be used either as an open front or closed front, and it still will provide ample ventilation.

This design is the result of scientific poultry raisers who planned according to practical requirements and experimental data.

The plans give full details of construction for the complete erection.

## The FORD Garage

EVERY dollar that goes into this garage serves a purpose, yet it is attractive in appearance, well constructed and serviceable.

### SIZES:

Plan No. 1.....10' x 16'

Plan No. 2.....12' x 18'

## The CHEVROLET Garage

A HANDSOME one-car garage of extremely economical construction yet large enough to provide work space around the car.

### SIZES:

Plan No. 1.....12' x 16'

Plan No. 2.....12' x 18'

## The GRAY Garage

THE "Gray" shows how every dollar is spent to the best advantage, but you will be pleased and surprised when you learn the actual cost. The plan gives clear details of construction.

### SIZES:

Plan No. 1.....12' x 18'

Plan No. 2.....14' x 20'
